Rozměry: 1850 x 1220 x 1260 mm

Materiál: Durelis / OSB / Překližka foliovaná

Domeček doporučujeme ošetřit dvěma vrstvami voděodolného nátěru. Po zaschnutí první vrstvy domek mírně přebruste (hr. 100 nebo 120) a poté naneste druhou vrstvu.

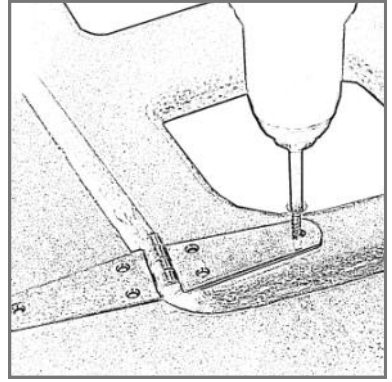

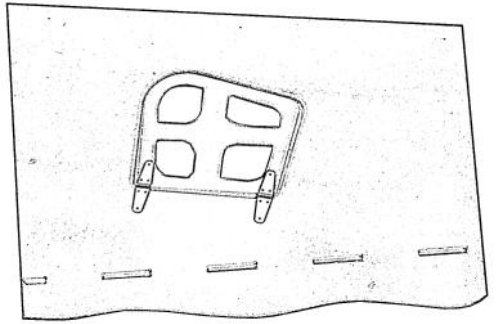

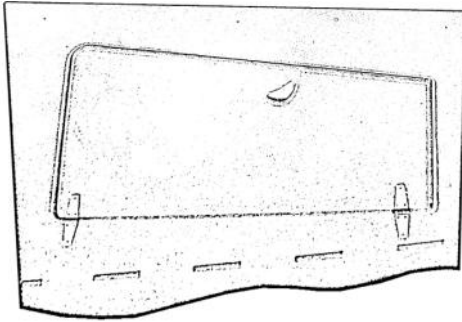

Domeček umístěte na suchý a pevný podklad (např. zámková dlažba). Pro ještě delší životnost domečku doporučujeme na jeho střechu připevnit krytinu (např. „asfaltové“ šindele).
